Al-Ameen Memorial Minority College is an ideal minority college established under Article 30 of the Constitution of India. This college is showing the way to educate economically weaker students in higher education. Although it is a minority college, not only the students of minority community but also majority students are getting education from this college equally. I am training 30 fourth semester students in history department. Hearing the complaint of lack of students, I tried my best to solve it, I have tried to implement this plan with an eye towards the all-round success of the students.

Issues Raised	Issues Resolved
1. Students raised the issue of lack of reference books in the Library.	1. In this regard I and professors of our department have given list of some reference books to librarian sir.
2. Students wanted to know the reason for installing so many CCTVs inside and outside the classrooms.	2. In reply I informed them that you cannot do any evil in secret and since it is a minority college it is set up to ensure that no anti-Shariat activities are done here.
3. Students wanted to know how we can get good results in exams.	3. In this regard, I advised the students to read the text book and write the answers to the short questions and the big questions in your notebooks and show them to us. If necessary we will make corrections or we will write the model answer and give it to you..
4. Students wanted to know if private tuition is necessary.	4. I have advised them that if you read various reference books and can develop an idea about them and practice by making notes and writing in the notebook, then there is no need to take tuitions. You can get good results.

Counseling is a process in which an experienced counselor helps another person to solve their problems in a mutually supportive environment. The relationship between mentor and mentee will be simple and casual. Just as one treats the second person as a friend and lends a helping hand, so does the second person and the first person trust and keep faith. In fact, the relationship between the two will be one of mutual love and respect. I have been assigned as a mentor to 32 students in the second semester of History Honors to resolve academic problems of the students through discussion. This plan has been adopted with an eye towards the overall development and success of the student.

**Issues Raised:**

1. Reading should be arranged in the library.
2. Arrangements should be made so that male and female students can sit separately during classes.
3. Girls toilets should always be kept clean.

**Issues Resolved:**

1. Arrangements are made to study in the library in consultation with the librarian sir keeping in mind the convenience of the student.
2. The college authorities have been asked to arrange seating of male and female students on separate benches during classes and it has been successful.
3. Campus Cleaning Department has been informed to keep all toilets clean. This work is arranged to be done on time.
