Title - My Family
Date - 28/11/2021

My family consists of five members. My father is a retired teacher. He is a very kind man. He loves his family very much. My mother is a housewife. She takes care of the house and looks after us. She is a very hardworking woman. I have two brothers. One is older than me and the other is younger. They are both students. My brother is a good student and always gets good marks. My sister is also a good student. She is very intelligent and has a good memory. She is good at subjects like science and mathematics. We all live together in a big house. We have a garden in front of our house. We spend a lot of time together. We go for walks in the park, play games, and eat delicious food. We are a happy family.
