Venue: Seminar Hall, Al-Ameen Memorial Minority College, Baruipur, Kolkata-700145

Date : 19.04.2022

Time: 1:00 PM onwards.

Participants: 35

Summary of the Seminar: The students of Philosophy Department of Al-Ameen Memorial Minority College participated in the seminar; some of them also presented paper on the topic "Indian Epistemology: The Concept of Pramāṇas" delves into the rich philosophical tradition of India, particularly focusing on the concept of pramāṇas. Pramāṇas refer to the means of valid knowledge acquisition, providing a framework for understanding how humans perceive and comprehend the world. The book explores various pramāṇas recognized in Indian philosophy, including perception (pratyakṣa), inference (anumāna), verbal testimony (śabda), comparison (upamāna), and non-perception

(anupalabधि). Each pramāṇa offers a distinct way of knowing, with its own criteria for validity and reliability.

Through meticulous analysis, the book elucidates the intricacies of each pramāṇa, examining its epistemological foundations, scope, and applications. It explores the debates and disagreements among different philosophical schools regarding the nature and hierarchy of pramāṇas, shedding light on the diversity of perspectives within Indian epistemology.

Furthermore, the book situates the concept of pramāṇas within the broader philosophical context of Indian thought, highlighting its connections to metaphysics, ethics, and spirituality. It demonstrates how an understanding of pramāṇas is essential for comprehending the nature of reality, the pursuit of knowledge, and the quest for liberation (mokṣa) in Indian philosophical traditions.

Overall, "Indian Epistemology: The Concept of Pramāṇas" offers a comprehensive and insightful exploration of one of the foundational aspects of Indian philosophy, inviting readers to engage with its profound insights and enduring relevance.

Time: 12:00 PM onwards.

Participants: 32

Summary of the Seminar: The students of Philosophy Department of Al-Ameen Memorial Minority College participated in the seminar; some of them also presented paper on the topic " Rationalism: Ancient and Modern aspects" navigates the evolution of rationalist thought from antiquity to the contemporary era, elucidating its enduring significance and transformative impact on human understanding. The book meticulously traces the origins of rationalism in ancient civilizations such as Greece and India, where thinkers like Socrates, Plato, and Aristotle laid the groundwork for rigorous inquiry and critical thinking.

Through incisive analysis, the book explores the rationalist movements of the Enlightenment era, which championed reason, science, and individual autonomy as antidotes to dogma and superstition. Figures such as René Descartes, Baruch Spinoza, and Immanuel Kant are examined for their contributions to shaping modern rationalist discourse, advocating for empirical investigation, logical deduction, and ethical rationality.

Furthermore, the book delves into contemporary manifestations of rationalism, exploring its intersections with fields such as philosophy of science, ethics, and political theory. It examines the ongoing debates surrounding rational choice theory, secular humanism, and the scientific method, highlighting the complexities and ambiguities inherent in applying rationalist principles to diverse domains of inquiry.

Through comparative analysis and historical contextualization, "The Summit of Rationalism" offers readers a nuanced understanding of the perennial quest for truth, reason, and enlightenment across epochs and cultures. It invites critical reflection on the promises and pitfalls of rationalism as a guiding intellectual framework, while also celebrating its enduring legacy in shaping human progress and civilization.
