Certificate Issued	: 3 rd Week of June

Methodology

- Theoretical and Practical Approaches.
 - Experience sharing
 - Students' Seminars
 - Project Work

Course Outcome

This course structure aims to cover the essential areas tested in English language sections of competitive examinations, providing students with the skills and knowledge needed to excel in such tests.

Course Name: English Language Course for Competitive Examinations

Course Code: CC7/19/1/ELCCE

Overview of the Syllabus

Class Duration: 4 hours for each module

Module 1: Grammar Fundamentals:

Covering essential grammar rules such as sentence structure, parts of speech, verb tense, subject-verb agreement, and punctuation.

Module 2: Vocabulary Building:

Introducing techniques for expanding vocabulary through word roots, prefixes, suffixes, and context clues. Including commonly asked words in competitive exams.

Module 3: Reading Comprehension:

Teaching strategies for effectively understanding and answering questions based on passages, including skimming, scanning, and inference skills.

Module 4: Critical Reasoning:

Developing the ability to analyze and evaluate arguments, identify logical fallacies, and draw valid conclusions from given information.

Module 5: Sentence Correction:

Practicing identifying and correcting errors in sentence construction, including grammatical mistakes, awkward phrasing, and clarity issues.

Module 6: Paragraph Formation:

Guiding students on how to structure coherent paragraphs, including topic sentences, supporting details, and transitions.

Module 7: Synonyms and Antonyms:

Building skills in recognizing and applying synonyms and antonyms, as well as understanding shades of meaning and connotations.

Module 8: Idioms and Phrases:

Familiarizing students with common idiomatic expressions and phrases used in English language examinations.

Module 9: Mock Tests and Practice Papers:

Providing ample opportunities for students to practice under exam-like conditions, including timed tests and realistic question formats.

Module 10: Test-Taking Strategies:

Offering tips and techniques for managing time effectively, eliminating incorrect answer choices, and maintaining focus during the examination.

Gradation: A=50-60%

A+=60-70%

O=70-100%

Assessment and Certification:

Theory and practical examination after each module.

Final Project: Solving a real-world computer-related problem.

Course completion certificate.

The examination pattern and marks distribution for the Add On Courses

Total Marks : 50 Marks

Theory Exam : 30 = i. Multiple-choice questions (MCQs) : 30 marks (2marks for 15 questions)
ii. Project report / Presentation : 10 marks
iii. Internal Assessment : 10 marks

This distribution allows for evaluating both theoretical knowledge and practical skills, along with assessing the student's consistency and engagement throughout the course.
